

Solink AI Agents

Digital teammates that scale your best people across your entire physical footprint.

Increase vigilance

AI Agents watch the endless feeds that drain attention and lead to burnout.

Spot anomalies sooner

They escalate the incidents buried in layers of footage and data.

Act faster

They respond automatically, based on your rules and tools.

Energize your workforce

They reserve human capacity for decisions that drive outcomes.

Select or build an Agent

Define Skills & Guardrails

Connect your ecosystem

Choose an action

Automate and set live

What makes Solink AI Agents different?

Domain-specific

Trained for your most niche use cases.

Centralized

Links fragmented systems that don't talk to each other.

Reasons like a human

Analyzes the before, during, and after to formulate full context.

The explosion of video and data has surpassed human limits. No team can watch it all, and the gap between what is recorded and what is analyzed is where risk lives.

Solink AI Agents change that forever. Inquire today.
